JOY DAS SHANTA

Web Developer

Dubai, United Arab Emirates (open to relocation) • +971 56 854 5199 • joydascsepuc@gmail.com

GitHub • LinkedIn • Portfolio

Web developer with almost 7 years of experience in PHP, Laravel and Shopify. Specialised in scalable backend architectures, REST APIs, event-driven systems and e-commerce platforms. Experience across startups, scale-ups and mid-sized companies - from the first line of code to production systems handling over 1,000 daily transactions.

SKILLS

- Backend: PHP, Laravel, REST APIs, MySQL, MVC, Service Layer
- Architecture: Event-Driven Architecture, Queue Jobs, WebSockets, Redis, Caching
- E-Commerce: Shopify, Shopify Plus, Liquid, Metafields, Checkout Optimisation
- Frontend: JavaScript, HTML, CSS, Bootstrap, jQuery, Laravel Blade
- Integrations: Stripe, PayPal, Zoho, Firebase, Wix, Webflow
- Server & Deployment: Cloudways, Digital Ocean Droplet (Nginx, SSL, Supervisor), GitHub, SSH/SCP, Linux Basics
- Tools: Git, GitHub, Postman, Composer

WORK EXPERIENCE

WEB DEVELOPER & IT ADMINISTRATOR

Dubai, UAE

Enduro Supply

From Nov. 2023

- Developed and maintained Laravel-based backend systems with REST API architecture, including a BNPL system with over **AED 170,000** in transaction volume.
- Built event-driven systems using **Redis**, **Queue Jobs** and **WebSockets** for **asynchronous processing** and real-time data synchronisation.
- Integrated external systems (Shopify, Zoho, Hubtiger, DEAR Inventory, Stripe) into a **centralised backend architecture** via API-based interfaces.
- Developed and optimised **Shopify Plus storefronts** (Liquid, Metafields, Custom Checkout) - reduced cart abandonment by **22%** and returns by **37%**.
- Built modular system architectures for business-critical processes including real-time inventory synchronisation across multiple stores (DEAR/Cin7Core).
- Automated business processes (**Zapier**, **Zoho Flow**) and administered SaaS systems (Microsoft 365, **Google Workspace**, Zoho).

FULL STACK WEB DEVELOPER

Ohio, USA (Remote)

Fishfee Platform LLC

June 2021 – Oct. 2023

- Developed a scalable multi-tenant delivery platform (Laravel 9, PHP 8, MySQL) with **3** order verticals - food delivery, parcel shipping and retail shopping - across **67** database migrations and **59** Eloquent models.
- Implemented a complete **Stripe Connect** Express onboarding pipeline including programmatic account creation, **KYC verification** (Stripe Identity Webhooks) and automated driver activation.
- Built an automated dual-rail payout system via Laravel **Queue Jobs** - Stripe Connect Transfers and US Bank PayeeChoice ACH - with atomic transaction records and reconciliation logic.
- Integrated Stripe Payment Intents, **ConvergePay** and Stripe Issuing for customer payments, alternative gateways and **corporate card** management.
- Developed a bid-based driver dispatch system with real-time offer submission and job assignment across three order verticals.

- Implemented cross-platform push notifications (OneSignal REST API, **Firebase Cloud Messaging**) with automatic device detection (iOS, Android, Web).

EARLIER EXPERIENCE

Junior Software Developer at Softsource System Limited, Bangladesh (Sept. 2019 - June 2021) - Laravel, PHP, Shopify integrations and REST APIs for e-commerce clients.

PROJECTS

OTP CAB

Laravel 12, PHP 8.2, MySQL, Redis, Laravel Reverb

- Built a production-ready multi-role ride-hailing backend (Customer, Driver, Vendor) with **REST API architecture**, RBAC (Spatie), **51** database migrations and auto-generated OpenAPI documentation.
- Implemented a real-time bidding system using Laravel Reverb (WebSockets) and Redis - including **8** broadcast events for live driver matching, GPS tracking and trip lifecycle management.
- Built a dynamic pricing engine with **10+** fare models (Slab, Fixed, Round-Trip, Package) along with admin-configurable surge multipliers and immutable booking snapshots.
